Profile

Experienced Node.js Backend Developer specializing in microservices architecture, API development, and real-time applications using WebSocket and Redis. Adept at using Docker, Kubernetes, and CI/CD pipelines for deployment.

Work Experience

Backed Developer *Nimbus Post Pvt Limited* Nov 2021 - Present

- Develop and maintain server-side logic using **Node.js** and **Express.js** (or NestJS)
- Design and implement **RESTful APIs** and/or **GraphQL** endpoints
- Integrate third-party APIs and services
- Collaborate with frontend developers to integrate user-facing elements with server-side logic
- Build and maintain **microservices** architecture where applicable
- Write reusable, testable, and efficient code
- Handle database integration and optimization (e.g., **MongoDB**, **PostgreSQL**, **MySQL**)
- Implement **security and data protection** practices
- Use version control tools like **Git**, and work in Agile teams using **Scrum/Kanban**
- Participate in code reviews and help maintain code quality, performance, and organization

PHP DEVELOPER *Kashish Intellectual Property Group (KIPG)* Jan 2020 - Oct 2021

Develop and Maintain Web Applications:
- Write clean, well-structured, and maintainable PHP code.
- Develop backend logic and integrate it with frontend technologies (HTML/CSS/JS).

Create and Manage APIs:
- Design and develop RESTful APIs or SOAP services.
- Integrate external APIs, payment gateways, or third-party services.

Database Management:
- Build and optimize MySQL/PostgreSQL queries.
- Design and manage database schemas, indexes, and data integrity.

Collaborate with Frontend Developers:
- Work closely with UI/UX designers and frontend teams to integrate components.
- Ensure seamless data flow between client and server.

Debugging and Troubleshooting:
- Identify bottlenecks and bugs, and devise solutions to mitigate and address them.
- Use tools like Xdebug, logs, and performance profilers.

Education

B-TECH - 72 2013 - 2017
Dr Bhim Rao Ambedkar University

12th - 65 2010 - 2011
Aditya Birla Intermediate College
10th - 64 2008 - 2009

Projects

CHECKOUT (API CREATION USING NODE JS) Sep 2024 - Present

- Developed shipment creation APIs for clients, including EasyEcom, CRED, and OMSGuru, using Node.js, Express, and React-based frontend integration.
- Collaborated with frontend teams to build dynamic, responsive, and interactive UIs using React.js and Redux for state management.
- Participated in the full software development lifecycle, including planning, design, testing, and deployment for both frontend and backend systems.
- Integrated third-party APIs into existing software systems to improve functionality.
- Provided technical guidance to junior developers, promoting best practices for both backend and frontend development.
- Wrote clean, modular, and reusable code following industry best practices and code standards for React development.

SMS INTEGRATION (MICROSERVICES NODE) Nov 2021 - March 2025

- Handled backend API integration for various projects individually.
- Developed and deployed Node.js projects in AWS.
- Worked on Payment API integration and optimised code for better performance, scalability, reliability, security, and maintainability.
- Participated in technical discussions and meetings, providing valuable insights and solutions.
- Wrote well-designed, testable code.

Skills

- NODE JS
- JAVASCRIPT
- ES6+
- EXPRESS JS
- TYPESCRIPT
- RESTFUL APIS
- JSON
- WEB TOKENS(JWT)
- MONGODB
- MYSQL
- POSTMAN
- SWAGGER
- GIT
- JIRA
- PHP
- LARAVEL
- PaymentGateway(RazerPay,Paytm,PhonePe)

Award

Rising Star Award *Nimbus Post Pvt Limited*
